

The STRATUS JUNIOR from Bertrand-Puma is a table-top dough sheeter, meant for the slimming and stratification of the dough. Compact, this dough sheeter will be able to fit in narrow areas.

- + Frame and cover are made of epoxy painted steel.
- + Tables can be removed and folded up when not in use.
- + With a distance of 700mm between its feet, it can be placed on a worktable.
- + Belts in woven plastic.
- + Reinforced joystick to guide the procession of the dough.
- + Ergonomic handle of the lever.
- + Reinforced aluminum adjustment lever.
- + Tear-proof feed rollers at the entry of the conveyor belt.
- + Stainless steel cylinders protected thanks to a safety microswitch and gas springs.
- + Quick replacement of the belts (30min) thanks to an unlocking system of the table.

Facilitated replacement of the belts in under thirty minutes.

Reinforced joystick and adjustment lever in reinforced aluminum.
