

The STRATUS SENIOR XL from Bertrand-Puma is a dough sheeter on a stand, meant for the slimming and stratification of the dough.

- + Frame and cover are made of epoxy painted steel.
- + Tables can be removed and folded up when not in use.
- + Belts in woven plastic.
- + Handles and pedal to guide the procession of the dough.
- + Ergonomic handle of the lever.
- + Reinforced aluminum adjustment lever.
- + Tear-proof feed rollers at the entry of the conveyor belt.
- + Stainless steel cylinders protected thanks to a safety microswitch and gas springs.
- + Quick replacement of the belts (30min) thanks to an unlocking system of the table.

Facilitated replacement of the belts in under thirty minutes.

Adjustment lever in reinforced aluminum.
